STAR MICRONICS CO., LTD.

Notice Regarding Name Changes of Two Subsidiaries in the Machine Tools Business

STAR MICRONICS CO., LTD. (“the Company”, Head Office: Suruga-ku, Shizuoka City, Shizuoka Prefecture; Representative Director, President and Chief Executive Officer: Mamoru Sato) announces that two of its subsidiaries have changed their company names, effective September 1, 2026. Both new names incorporate “Star Micronics.”

1. Details of the Changes

Current Company Name	New Company Name	Location	Main Business Activities
Star Metal Co., Ltd.	Star Micronics Engineering Co., Ltd.	946 Nunohikihara, Makinohara City, Shizuoka Prefecture, Japan	Assembly of machine tools; manufacturing and processing of sheet metal parts
Micro Sapporo Co., Ltd.	Star Micronics Hokkaido Co., Ltd.	705-2 Shinkominami 3-chome, Ishikari City, Hokkaido, Japan	Manufacture and sale of precision parts

2. Purpose of the Name Changes

The purpose of these name changes is to clearly identify both companies as members of the Star Micronics Group, further enhance the Group’s technological and product capabilities through the unification of its group brand, and promote integrated group management.

Star Metal Co., Ltd. (“Star Metal”) has been expanding its business scope from its traditional focus on sheet metal processing into engineering-related fields, including the assembly of the Company's high-end machine tool models. Accordingly, effective September 1, 2026, Star Metal has changed its name to Star Micronics Engineering Co., Ltd. to better reflect the current nature of its business. In conjunction with its relocation to the Makinohara Factory, which began operations in July 2026, it has also moved its head office to Makinohara City, Shizuoka Prefecture.

Micro Sapporo Co., Ltd. has changed its name to Star Micronics Hokkaido Co., Ltd., effective September 1, 2026, adopting “Hokkaido,” a broader regional designation, in order to more clearly express both its locally rooted business development and its identity as part of the Star Micronics Group.

3. Effective Date: September 1, 2026

Both companies will continue to contribute to customers’ manufacturing activities as members of the Star Micronics Group by providing high-quality products and services in the machine tool-related field.
